Yes

Fifty years ago on the 1st March, 1954 there was an earthquake in Adelaide. It's now time for the jubilee. God is bringing another earthquake. He's coming to shake like never before. He's coming to release things like never before.

The epicentre of the 1954 earthquake was on or very close to the Eden Fault in the southern suburbs. He wants us to return to Eden, to return to knowing Him. He's going to shake so that His bride is stripped of the things that prevent her knowing Him. He wants Eden placed in her heart, to walk with Him and know Him. He wants Eden to be not only a judgement but a blessing.

There is something in the spirit realm hovering over our city. There is something along the fault lines of this city that He is going to expose. Shakings come on fault lines. Shakings only come because of fault lines and He is exposing the fault lines. We left Him, we deserted Him, we disobeyed Him. We wanted what we should not have had; that's a fault line. We took His glory; that's a fault line. We promoted ourselves and wanted to be like Him; that's a fault line. Shakings come on fault lines, for no other reason.

But don't be afraid of the shakings, they will bring jubilee and jubilee is freedom. Jubilee is liberty. Jubilee is restoration. Jubilee is no more debts. He wants us to pray into jubilee. He wants us to remember jubilee. He wants us to see and understand how He sees and understands.

In this nation Adelaide is at the epicentre of a spiritual fault line. Out of Adelaide will come shakings like never before. The first will fall in Adelaide and great things will be exposed. There will be a rippling effect into the rest of this nation of Australia. He wants to set His church free, He wants to purify His bride. He desires us to know Him and to walk with Him in purity and humility again.
